

Experience **NEVER** Out-of-Stock with BW Industrial Sales' VMI Plus Program...

3 WAYS

We provide you with **PRODUCTION PROTECTION** for your manufacturing process:

1

ONLINE ORDER TOOL:

3-clicks away from placing an expedited order for any item currently in your VMI program. Your order will be processed within 60 minutes and you will receive your parts the very next day.

2

ONSITE EMERGENCY PARTS VAULT:

We place a locked vault-cabinet with an emergency quantity of all the critical parts contained in your VMI program. The inventory in this vault is not billed to you until the seal is broken and parts are consumed. At that time we are notified and we respond with a follow-up shipment the following day.

3

MIRROR-VERSION INVENTORY:

We inventory a mirror-version of your VMI program in our in-house floor stock. If an expedited need arises we will access the supplies needed and provide them to you through overnight delivery.
